

## VN5705XDG3 Graphic Cards

- NVIDIA GeForce GTX570 GPU
- 1280MB GDDR5, 320bit
- Dual DVI and HDMI output support
- PCI Express 2.0 x16 bus interface
- Support NVIDIA PuroVideo HD Technology
- Complete DirectX 11 support
- Support NVIDIA PhyX and CUDA Technology

### Specifcation

|                                |                                                                                               |
|--------------------------------|-----------------------------------------------------------------------------------------------|
| GPU                            | GeForce GTX570                                                                                |
| Memory Clock                   | 3800 MHz   |
| Engine Clock (Base/Game/Boost) | 732 MHz                                                                                       |
| Memory Type                    | GDDR5                                                                                         |
| Memory Size                    | 1280 MB                                                                                       |
| Memory Bus                     | 320-bit                                                                                       |
| Interface                      | Support PCI-E 2.0 x16                                                                         |
